

The Olan of Action for 2013-2014

The action plan describes the political and organizational goals that the Student Parliament has set out to accomplish. The current Plan of Action for 2013-2014 was adopted on August 25, 2013.

The Student Parliament demands:

- a. Better and more frequent training of teachers in pedagogy, didactics and teaching methodology.
- b. That test lectures will be a part of the evaluation process when recruiting academic staff with tenure.
- c. That there will be established a chapter about learning environment in the University study and exam regulations.
- d. That the University introduces an indicator for quality in teaching.
- e. That all University services for students are gathered into a common digital platform.
- f. That the University offers free Norwegian courses for all international students.
- g. That the University should give priority to research on renewable energy.
- h. That the University establishes courses to students at all faculties on how to convey research.
- i. There should be at least 20 percent student representation in all collegial decision making bodies at the University of Oslo, also in the meetings of the Deans.
- j. That the University provides training for all members of boards, councils, committees and commissions at the institution.
- k. Compulsory purchase of curriculum is not to be part of the agreement with Kopinor on a new digital solution for the use of literature.
- l. That the University at all times follows the guidelines for quality assurance in teaching, and work to improve these.
- m. Automatic feed-back on exams for all students at the University of Oslo
- n. That all students are to get an introduction to their field of study and an introduction to study techniques during the first weeks of their studies.
- o. That the University works for the increased use of Open Access.
- p. That there should be put up city bike racks at all University areas.

- q. The digitalization of all lectures by the use of podcasting, in order to better meet the needs of the University's many different groups of students.
- r. That the University implements energy saving measures such as turning off computers and lights at night.

The Student Parliament will:

- a. Organize an International Solidarity Day in order to highlight the situation of students in other countries.
- b. Develop a comprehensive media strategy.
- c. Conduct a clean-up of the Student Parliament's regulations and statutes.
